

Level 3 Proposal: Conversions

Lucian Smith

Why a conversion package?

(using the 'Hierarchical modeling' package)

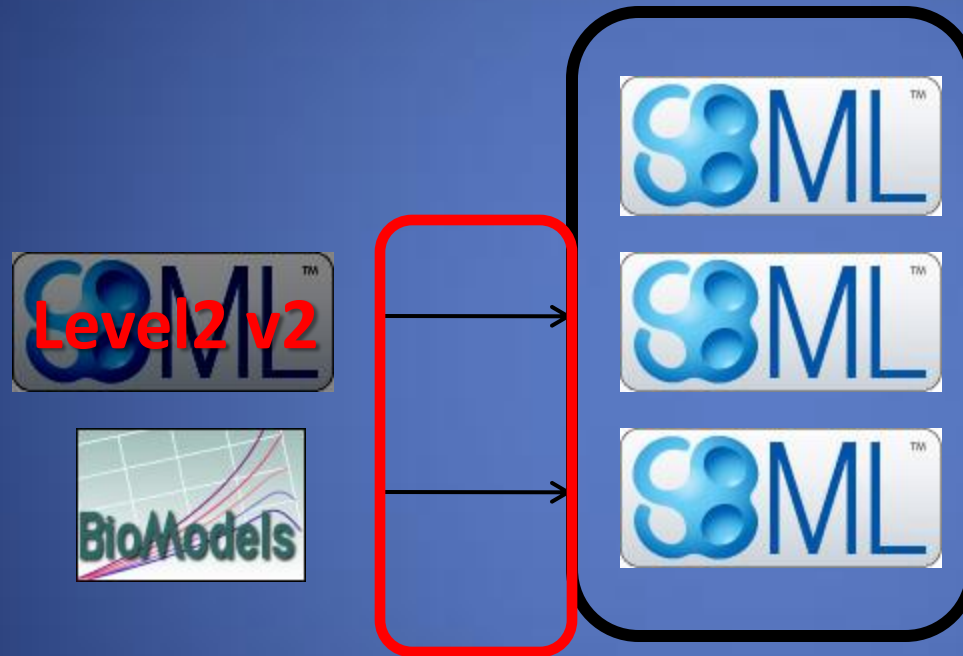

Why a conversion package?

Why a conversion package?

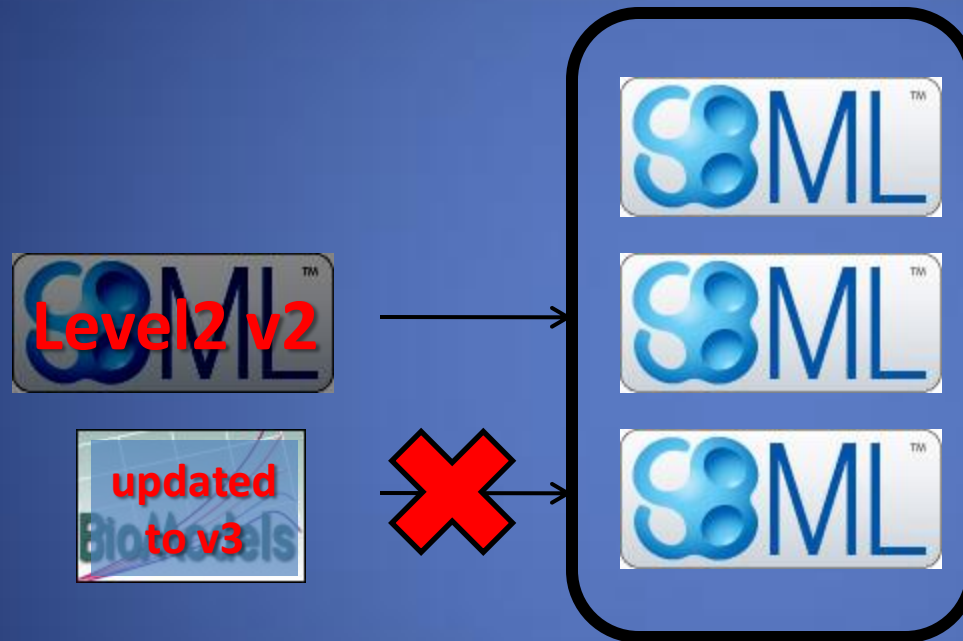

Why a conversion package?

Not part of the model!

Why a conversion package?

So, here's my proposal:

So, here's my proposal:

So, here's my proposal:

So, here's my proposal:

Level3 v1

Level3 v1

So, here's my proposal:

Everything included in the model!

A stab at how this would look:

```
<ConvertedModel id="converted_model" level="3" version="1">  
  <source> [xref to original model] </source>  
  <conversion type="xslt">  
    [xslt code]  
  </conversion>  
</ConvertedModel>
```

A stab at how this would look:

```
<ConvertedModel id="converted_model" level="3" version="1">  
  <source> [xref to original model] </source>  
  <conversion type="reference">  
    <xref> http://www.sbml.org/sbml/level3/conversion/l2v3\_to\_l3v1  
    </xref>  
  </conversion>  
</ConvertedModel>
```

A stab at how this would look:

```
<ConvertedModel id="converted_model" level="3" version="1">  
  <source> [xref to original model] </source>  
  <conversion type="reference">  
    <xref> http://www.sbml.org/sbml/level3/conversion/l2v3_to_l3v1  
    </xref>  
  </conversion>  
</ConvertedModel>
```
